PREAMBLE

ARTERIAL DRAINAGE ACTS, 1945 AND 1995

(NO. 3 OF 1945 AND NO. 14 OF 1995)

DRAINAGE SCHEME PREPARED BY THE COMMISSIONERS OF PUBLIC WORKS IN IRELAND
FOR PART OF THE RIVER SLANEY AND ITS TRIBUTARIES AT ENNISCORTHY IN THE COUNTY OF WEXFORD

We, the Commissioners of Public Works in Ireland, being of the opinion that the execution of arterial drainage works is expedient in respect of a part of the River Slaney in the County of Wexford, for the purpose of preventing or substantially reducing the periodical localised flooding of lands in the area of that watercourse or such a part or of improving by drainage lands in that area, have prepared a scheme to be known as the **River Slaney (Enniscorthy) Drainage Scheme** for the execution of such works, particulars of which scheme are shown in the Schedules, Maps and Section Drawings hereunto annexed. The scheme has been prepared for the purpose of preventing or substantially reducing localised flooding.

The waters and watercourses proposed to be dealt with are shown in **BLUE** colour on the drawings. The lands to be drained or otherwise improved are shown in **GREEN** colour on the maps. The chainages in metres along each channel are also shown on the drawings.

The drainage works proposed to be executed are mentioned and described in Schedule A.

The lands proposed to be compulsorily acquired or substantially interfered with, the easements, fisheries, water rights, navigation rights and other rights proposed to be compulsorily acquired, restricted, terminated or otherwise interfered with and the roads and bridges (whether public and private) proposed to be diverted, removed or otherwise interfered with are mentioned and described in Schedule B.

The reputed proprietors, owners and rated or other occupiers of the several lands proposed to be compulsorily acquired or substantially interfered with and of the several easements, fisheries, water rights, navigation rights and other rights and private roads and bridges proposed to be compulsorily acquired, restricted, terminated or otherwise interfered with are set forth in the said Schedule B.

The respective aggregate annual values (at the time of preparation of the scheme) of the portions of the benefited lands situated in the County of Wexford and the several total increases in the annual values of these portions respectively which will probably arise in consequence of the execution of the scheme are shown in Schedule C.

The area proposed to be constituted a separate Drainage Scheme comprises the waters and watercourses proposed to be dealt with and the lands which will be drained or otherwise improved.

In Witness whereof, we, the Commissioners of Public Works in Ireland, have caused our Common Seal to be hereunto affixed this ____day of _____, 20____
